

A few examples what Stiefingtal has done so far to adapt to climate change:

Agricultural trial fields for the prevention of soil erosion

Neophyte walking days with the kindergartens and schools

Lecture evenings on the topic of blackout

Dialogue on climate change-adapted building

Groundbreaking ceremony for the first climate change-adapted apartment building

Setting a phenological hedge

Creation of bee meadows

Tree and shrub planting campaigns

Setting of shade trees

Climate change-adapted school with open-air classroom

Flower meadows and snack gardens for the population

Joint sandbag shopping campaign
